Package main

Interface IGraph

All Known Implementing Classes:

Graph

---

public interface **IGraph**

The IGraph interface is used to model a road network

Author:

calchen

Method Summary

All Methods	Instance Methods	Abstract Methods

Modifier and Type	Method	Description
java.lang.String	**findShortestPath** (java.lang.String loc1, java.lang.String loc2)	findShortestPath() returns the directions in text for the shortest path from a starting Location to a destination

Method Detail

findShortestPath

```
java.lang.String findShortestPath(java.lang.String loc1,
                                  java.lang.String loc2)
```
